THIS BULLETIN INCLUDES INFORMATION ABOUT A NEW OR EXISTING OPTION OR FEATURE THAT IS AVAILABLE FOR PRODUCTION.

DESCRIPTION: HRT (Hydraulic Rescue Tool) Front Bumper Compartment

PLANT: General

SPECIFICATION: A full-width compartment will be provided in the front bumper for storage of rescue tools. Two electric-rewind hydraulic hose reels shall be provided and mounted so that one reel is in each front corner with space for two rescue tools (cutter & spreader) inboard from each reel. The hinged cover shall be formed from .125 smooth aluminum, painted to the apparatus color, and without sharp 90-degree front corners for fire fighter safety. The cover shall be deep enough to allow sufficient room for the hydraulic reels with the center portion of the cover higher to allow for storage of the rescue tools. Cover shall include two exterior-mounted chrome-plated handles for ease of lifting, gas shocks to hold the cover in the open position, and rubber positive latching mechanisms each side of the cover to secure in the closed position.
