THIS BULLETIN INCLUDES INFORMATION ABOUT A NEW OR EXISTING OPTION OR FEATURE THAT IS AVAILABLE FOR PRODUCTION.

DESCRIPTION: HYDRAULIC FOLDING TANK RACK

PLANT: General

SPECIFICATION: A drop-down hydraulic storage rack shall be provided on the passenger high side of the apparatus. The rack shall be capable of carrying up to a 3,000 gallon portable tank and be able to lower the tank down to 35" above ground level. There shall be positive latching devices on the front and rear of the storage rack for securement in the stowed position. Tank rack shall be wired to activate the cab "Do Not Move" light when in the lowered position. The exterior face of the rack shall be aluminum treadplate or optional painted surface. This folding storage rack is available on new or existing apparatus.
