

Product Awareness Bulletin

Date: 12-19-11

Contact: Scott Oyen - South Dakota

Bulletin Number: 3072

Truck Name/Number: Kearny, NE

Quote Writer Number: Special Option

Description: Roll-Out Tray/Storage Compartment

Specification: 500# Rollout Tray/Drawer Combinations: Four roll-out equipment tray/drawers shall be installed in the compartment. The drawers, utilizing telescoping slides and cam follower bearings shall each be rated to a maximum load of 500 lbs. Each drawer shall have a gas shock to hold the tray extended or closed. Each drawer's slide mechanism shall be powder coated.

Each drawer shall be formed of .188" smooth aluminum plate, with handholds cut into the front face of each drawer. This will allow the drawers to be closely stacked one above the next. These will be permanently mounted.

The two bottom drawers will be seven inches deep. The top two drawers will be three inches deep.

Reflective material measuring 1" x 6" shall be installed on each front corner, both on the face and side of tray for firefighter safety.
