

PRODUCT AWARENESS BULLETIN

FROM ROSENBAUER

Bulletin No. 5006C
Quote Writer No. Special
Date: 6-13-07

THIS BULLETIN INCLUDES INFORMATION ABOUT A NEW OR EXISTING OPTION OR FEATURE THAT IS AVAILABLE FOR PRODUCTION

DESCRIPTION: Gauge Panel with Overhead Step

PLANT: Central

SPECIFICATION: All gauges shall be suitably enclosed and mounted on a full compartment-width "hinged" panel constructed of the same material as the pump operators control panel. Panel shall provide access to the backside of all gauges and gauge lines and include a stainless steel piano hinge, flush mounted chrome plated trigger latches, and stainless steel cable end-stops. Electrical wiring and all gauge lines shall be properly tie-wrapped to prevent kinking or cutting of the lines when the panel is opened.

Gauge panel shall be angled to provide for a step overhead to access compartments on top of the truck and to provide better visibility to the gauges. Light assemblies shall be incorporated into the bottom of the step to illuminate the entire pump operator's control panel.
